30DAYMAPCHALLENGE · DAY 11 · SOUND · BOGOTÁ

Where Bogotá can't sleep

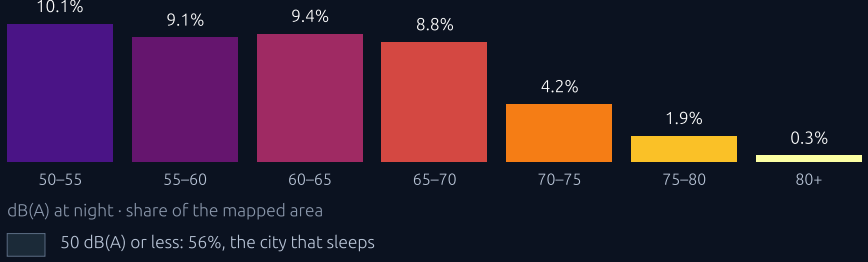

Environmental noise at night (21:01 to 7:00) on ordinary (non-Sunday) days

44%

of the mapped area is above 50 dB(A) at night, the limit for residential areas (Colombia, Res. 0627 of 2006).

By day, 22% is above its limit of 65.

Data: Bogotá District Environment Department (SDA), Strategic Noise Maps of Bogotá D.C. 2018-2021, night, ordinary days (CC BY 4.0), accessed 2026-11-10. Basemap: Mapa base azul, IDECA. This map and its project: CC BY 4.0.
How it was made: all in RustGIS web (web.rustgis.app), with four scripts: data as quantized PBF, Calculate Field, Unique Values and layouts. Scripts: github.com/jgregoriorincon/30DayMapChallenge-2026
